PROFILE

A dynamic student with a proven track record of analyzing manufacturing processes and managing costs. Skilled in identifying cost-saving opportunities, and nurturing supplier relationships. Experienced in financial analysis, reporting, and using accounting software. A collaborative team player with a strong commitment to achieving excellence. A Bachelor's degree, soon to be a Master's degree in Business Engineering - Operations Management from the University of Ghent underpins my expertise. Ready to leverage my skills and drive to ensure operational efficiency and success in the field of supply chain.

EMPLOYMENT HISTORY

Corporate relations - Cost & Manufacturing expert at UGent Racing Team September 2024

As a Corporate relations - Cost & Manufacturing expert at UGent Racing Team, I am responsible for managing and optimizing the cost and manufacturing processes for our racing team. This includes evaluating and improving manufacturing processes, identifying cost-saving opportunities, and establishing relationships with suppliers to ensure efficient production. I am also involved in developing strategies to enhance the overall performance and competitiveness of our team in racing events.

Accounting assistant at Norgay July 2022 — September 2022

During my time at Norgay, I assisted in various accounting tasks, including accounts payable and accounts receivable. I also contributed to the preparation of financial statements and reports. My responsibilities included reconciling bank statements, processing invoices, and supporting the finance team in day-to-day activities. Additionally, I gained experience in using accounting software to maintain accurate financial records and ensure compliance with company procedures.
