

EBE STUBBE

PROFESSIONAL SUMMARY

I am a dedicated and motivated individual with a strong passion for motorsport. Innovation is the driving force behind progress, and motorsport plays a significant role in this advancement, making it an exciting and dynamic field. Throughout my studies, I have developed a deep appreciation for teamwork and effective communication. Additionally, I have cultivated an engineering mindset focused on problem-solving. These qualities enable me to be a valuable asset to any team.

September 2023 – expected July 2025

Master of science, Electromechanical Engineering: Mechanical Energy engineering. (English course)

Ghent university

September 2020 – September 2023

Bachelor of science, engineering sciences: electro-mechanical engineering

Don bosco college Zwijnaarde

September 2014 – July 2020

Latin-maths, General secondary education (aso) with 82%

Flemish service for animators (VDS)

April 2018

Certificate animator

WORK EXPERIENCE

UGent Racing Engineer

September 2021–Current

3 years of experience working on suspension: both the vehicle dynamics and structural part. CAD: nx siemens and solidworks

1 year (current), working on cooling of braking system using CFD, ansys fluent as master thesis.

Working together and having attention to detail without giving up is the formula to success here. I am also one of the drivers.

Bijleshuis Tutor

September 2022–January 2024

Tutoring students to build and apply their knowledge of mathematics and physics. Patience, coaching.

Animator in youth work

April 2018–August 2020

Creating and organizing games for children, coaching the group and individual children, leadership and teamwork are essential here.
