PROFILE

Enthusiastic and driven electromechanical industrial engineering student with hands-on experience in automotive and racing technology through my role at UGent Racing. Passionate about innovation, problem-solving, and the intersection of mechanics and electronics. A dedicated sports enthusiast who enjoys running and strength training, bringing discipline, perseverance, and a strong work ethic to both academics and athletics. Seeking opportunities to apply my technical expertise and gain further industry experience.

WORK EXPERIENCE

UGent Racing 2024 - PRESENT
Mechanical Chassis Engineer

- Responsible for designing, analyzing, and optimizing the chassis for performance and safety. Work closely with a multidisciplinary team to integrate mechanical and aerodynamic components. Actively involved in TIG welding the chassis with team members, ensuring high-quality fabrication and structural integrity.

Bpost SUMMER OF 2024
Student Job

- Delivered packages by car and bike, ensuring timely and accurate distribution.

Hamer Technical Installations SUMMER OF 2023
Student Job

- Assisted in moving items to a new facility, supporting an efficient and organized relocation.

Various Student Jobs 2020 - 2022
Retail

EDUCATION

Bachelor of Industrial Engineering 2022 - PRESENT
Electromechanics | KU Leuven

Science and Mathematics 2016 - 2022
Sint-Maarten Campus Beveren
